

With God in Friendship, Love and Truth

Together Let's Do It

Link Your World to Your Lodge

Tools to improve your fraternal skills
and recruit new members.

The goal to Odd Fellowship is practicing the Motto
Friendship, Love & Truth

Education and Communication

In order to “Link Your World to Your Lodge” with your neighbor, friend, and fellow worker we have assembled the tools for you to achieve this task. Although each area of the world will come to find the particular niche in which Odd Fellowship will work in their community, and the procedure for accomplishing this may not be the same from area to area. While we do not wish to drive the hard and true task, we hope to give you a few ideas that will work for you or spark your thought of something that may be worth a try.

It has been asked many times by members of the Order: What is Odd Fellowship? What are we supposed to do? How can we have smooth and efficient meetings? And how do we get new members?

We have assembled some materials that will take you step by step through these particular questions and enable you to formulate the plans for making your lodge the group in town to which everyone wants to belong.

Before increasing membership in your lodge there are a few questions that you and the members of the lodge need to answer.

What is a Lodge and your Lodge in particular?

What do you do?

What is wrong with the Lodge?

What do you want the Lodge to be?

What would you like to do?

**Remember — in the end only you can increase Odd Fellowship
by asking someone to join.**
